for light and medium-weight curtains

Stable & elegant

The Qurails 4800 is a very stable rail because of its shape. It emanates elegance and simplicity. The track can be easily mounted on a wall or ceiling in various ways. A very popular track that can be used in a wide variety of situations, such as private homes, but also in office buildings and in the care sector.

- The ideal track for sheers, medium-heavy or heavy curtains.
- Easy to bend and exceptional quality.
- Can be forward or reverse bent in different radii.
- Compatible with the Goelst Flow System for regularly pleated curtains.
- Silent and smooth running, also round bends.

Standard colours

High quality, wear-resistant coating, highly colourfast, UV-resistant.

Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, see the Flow product data sheet.

Application example

Mounting to suspended ceiling by means of grid bracket, this application is not suitable for heavy curtains.

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.
